He further added that the implementation of Hybrid paddy cultivation in the state is being carried out as per Govt. guidelines.

4.2 Chief Secretary, Government of Tripura has advised the Agriculture Department to focus on export oriented, market-led and value chain linked production support programmes. He has stressed upon the necessity to support programmes like pulses and oilseeds cultivation under upland/rainfed conditions and also in the rice fallows.

4.3 Principal Secretary, Agriculture, has opined that the state is trying its best to double the income of the farmers within five years. For that, concerted efforts have been made for increasing production and productivity of crops, which we need on daily basis for our livelihood. To make the endeavour a successful, adequate funding support under RKVY is required.

4.4 Adviser (Horticulture), Ministry of Agriculture & Farmers Welfare, Government of India has stated that the project proposals, which have been placed before the pre-SLSC for the current year, have got clearances from the concerned Divisions of the Ministry with some observations except the higher allocation proposed for Promotion of Hybrid Paddy Cultivation through SRI for enhancing production and productivity, for which only Rs. 11.50 cr. has been agreed to.
